

## 5.1 Clevedon, Portishead and Gordano Forest of Avon

### Map Ref: 1.1 Clapton Moor (NSC A2)

- Work with Natural England, Avon Wildlife Trust and other landowners to ensure all woodlands have a Forestry Commission management plan (or equivalent), addressing nature conservation and also landscape objectives supporting their preparation and delivery. Set out a long-term replacement plan for high landscape impact poplar trees, maintaining these as a landscape feature.
- Ensure any new development requires the conservation and planting of trees within the site and as determined by scale and impact, includes off-site tree and woodland planting.
- Conserve and regenerate hedgerow boundaries with an initial focus on those outside Grant Schemes, which are not low cut and/or where hedgerow trees are present.
- Conserve hedgerow and field trees and plant new ones at irregular spacings where absent within hedged boundaries, reflecting NNR and SSSI guidance where applicable.
- Ensure public access routes are easy to use and follow.

### Map Ref: 1.2 Portbury Settled Coastal Edge (NSC C2)

- Ensure all woodlands have a current Forestry Commission management plan (or equivalent), addressing broad objectives, supporting their preparation and delivery.
- Conserve and establish groups of high impact landscape trees to screen and break up significant hard landscaping associated with Royal Portbury Dock.
- Ensure any new development requires the conservation and planting of trees within the site and as determined by scale and impact, includes off-site tree and woodland planting.
- Conserve and regenerate hedgerow boundaries with an initial focus on those outside Grant Schemes, which are not low cut and/or where hedgerow trees are present.
- Conserve hedgerow and field trees and plant new ones at irregular spacings where absent within hedged boundaries.
- Ensure public access routes are easy to use and follow.

**Map Ref: 1.3**  
**Clevedon & Portishead Ridges**  
**and Combes (includes NSC E4)**

- a. Ensure all woodlands have a current Forestry Commission management plan (or equivalent), addressing broad objectives, supporting their preparation and delivery. Focus on the number of ASNW and PAWS first.
- b. Buffer ASNW and PAWS by establishing fringing areas for natural regeneration.
- c. Establish native trees and shrubs within greenspaces in Clevedon and Portishead through the rewilding project, working with residents to deliver this.
- d. Establish individual and groups of trees and small woodlands within primary and secondary school grounds, with school responsibility for their care.
- e. Establish individual and small groups of trees in/ adjacent to streets, addressing inequalities in tree canopy cover and with a strong community dimension to their location, size and care. Reflect the historic character of Clevedon, by replacing Clevedon's pines with similar species when necessary.
- f. Conserve areas of coastal scrub, absorbing Park Homes and residential development into the wider landscape.
- g. Ensure any new development requires the conservation and planting of trees within the site and as determined by scale and impact, includes off-site tree and woodland planting.
- h. Conserve and regenerate hedgerow boundaries with an initial focus on those outside Grant Schemes, which are not low cut and/or where hedgerow trees are present.
- i. Conserve hedgerow and field trees and plant new ones at irregular spacings where absent within hedged boundaries.
- j. Ensure public access routes are easy to use and follow

**Map Ref: 1.4**  
**Tickenham Ridges and Combes**  
**(part of NSC E5)**

- a. Ensure all woodlands have a current Forestry Commission management plan (or equivalent), addressing broad objectives, supporting their preparation and delivery. Focus on the ASNW first.
- b. Buffer ASNW by establishing fringing areas for natural regeneration.
- c. Ensure any new development requires the conservation and planting of trees within the site and as determined by scale and impact, includes off-site tree and woodland planting.
- d. Conserve and regenerate hedgerow boundaries with an initial focus on those outside Grant Schemes, which are not low cut and/or where hedgerow trees are present.
- e. Conserve hedgerow and field trees and plant new ones at irregular spacings where absent within hedged boundaries.
- f. Ensure public access routes are easy to use and follow, working with landowner to support continued provision of permissive paths.

**Map Ref: 1.5**  
**Abbots Leigh Sandstone Uplands**  
**(part of NSC F1)**

- a. Ensure all woodlands have a current Forestry Commission management plan (or equivalent), addressing broad objectives, supporting their preparation and delivery. Focus on the number of ASNW and PAWS first.
- b. Buffer ASNW and PAWS by establishing fringing areas for natural regeneration.
- c. Ensure any new development requires the conservation and planting of trees within the site and as determined by scale and impact, includes off-site tree and woodland planting.
- d. Conserve and regenerate hedgerow boundaries with an initial focus on those outside Grant Schemes, which are not low cut and/or where hedgerow trees are present.
- e. Conserve hedgerow and field trees and plant new ones at irregular spacings where absent within hedged boundaries.
- f. Ensure public access routes are easy to use and follow

**Map Ref: 1.6****Avon Rolling Valley Farmland  
(NSC J6)**

- a. Ensure all woodlands have a current Forestry Commission management plan (or equivalent), addressing broad objectives, supporting their preparation and delivery. Focus on the number of ASNW and PAWS first.
- b. Buffer ASNW and PAWS by establishing fringing areas for natural regeneration.
- c. Establish native trees and shrubs within greenspaces in Clevedon and Portishead through the rewilding project, working with residents to deliver this.
- d. Establish individual and groups of trees, and small woodlands to address an increasingly fragmented landscape character, including through action by local groups, whilst conserving Grade 2 agricultural land and priority habitats, historic sites and viewpoints.
- e. Work with the owner of Leigh Court to support conservation of wood pasture, mature field trees, woodlands and hedgerows. Species of planted individual trees to reflect those already present or used in historic designed landscapes within the area.
- f. Ensure any new development requires the conservation and planting of trees within the site and as determined by scale and impact, includes off-site tree and woodland planting.
- g. Conserve and regenerate hedgerow boundaries with an initial focus on those outside Grant Schemes, which are not low cut and/or where hedgerow trees are present.
- h. Conserve hedgerow and field trees and plant new ones at irregular spacings where absent within hedged boundaries.
- i. Ensure public access routes are easy to use and follow
